Syntropo
<http://ny.Syntropo.com>

Thanks for loading my resume - may it bring your search for a professional web developer to an end!

You've just found a seasoned LAMP (Linux, Apache, MySQL and PHP) programmer and JavaScript/Flash developer, with a solid background in graphic design.

I can produce detailed project documentation, production schedules and realistic estimates of what each stage will cost to develop. You can then rely on me for any or all of the actual implementation - from front end design to back end programming.

Turning great web ideas into dependable software systems is my primary professional goal. Please don't hesitate to send an email when you're ready to start discussing yours!

Sincerely,
Doug Anarino

Positions

Owner/Freelancer - [Syntropo](#)

New York, NY, USA March 2001 to Present

Since reentering the contract market, I've worked on several large projects including the ecommerce site WaveMusic.com and Eazy Update, a generalized content management system for building editorial heavy, listings oriented sites. I've also undertaken a couple enterprises including the Flash based chat system, SideChat.com.

Senior Development Manager - [Traction Interactive](#)

New York, NY, USA Sept 2000 to March 2001

Managed a small team of web developers and acted as main technical lead at this mid sized interactive agency. Clients included Golden Books, SalonForce and Men's Journal. Projects required functional design specifications, information architectures, GUIs, and QA.

Managing Director - [Provincetown Design Group](#)

Provincetown, MA, USA Aug 1998 to Sept 2000

Oversaw operations and implemented most development work at this small web design and hosting firm serving local businesses in this upscale beach town. The PDG produces Provincetown.Com, which I administered and turned into a highly functional site and successful advertising vehicle.

Head of Technology - [AKQA](#)

London, UK Jun 1995 to Jan 1997

Part of the original team that brought companies like Virgin Radio, Durex, and BMW UK onto to the web, winning several design awards in the process. Our sites maximized the available bandwidth with bleeding edge technologies like JavaScript, Shockwave, FutureSplash (Flash) and RealAudio. Promoted the first web 2.0 (Netscape 2.0), giving lectures at the London Arts Council and writing articles for national magazines.

Art Director - [The Wire](#), Generator, Casablanca

London, UK July 1993 to Jun 1995

Held this position at three separate national magazines - two of them music titles, and the third political. Responsible for design and layout, sourcing artwork.

Production Manager - [Boyz](#), [Pink Paper](#) and Shebang

London, UK Oct 1992 to Nov 1993

Flash Projects

Viral A/V Player <http://www.bolt.com/syntropo/video/336815>

Company: Bolt.com

Client since: February 27th, 2006

Agency: Freelance

Roles: Flash Programmer, System Consultant

Team: Art Director, Marketing Manager, Project Manager, System Administrator

A Flash based multimedia player (FLVs, MP3s, and JPEGs) for this popular file sharing site. Used to display content on Bolt.com, but can also be embedded in third party sites to display feeds and slideshows of a user's media.

Web Kiosk <http://www.patshultz.com/>

Company: Pat Shultz Real Estate

Client since: May 9th, 2005

Agency: Provincetown Design Group

Roles: Flash Programmer, PHP Programmer, Project Manager

Team: Flash Designer

This standalone Flash based kiosk pulls real estate listings and photos from the client's web site via XML. Listings animate automatically or can be navigated individually.

Controllable Flash WebCam <http://www.provincetown.com/plan/webcam/>

Company: Provincetown.com

From October 13th, 2004 To November 2nd, 2004

Agency: Provincetown Design Group

Roles: Flash Programmer, Interface Designer, Project Manager

A Flash based webcam viewer and controller for the Canon Network Camera. Users can zoom, pan and otherwise control the camera. A queue of users waiting to control the camera is maintained. The applet also adjusts automatically to the user's bandwidth.

Custom Drum Designer <http://www.lpcustomshop.com/conga/>

Company: Latin Percussion

Client since: October 4th, 2004

Agency: Freelance

Roles: Art Director, Database Designer, Flash Programmer, PHP Programmer

Team: Marketing Manager, Project Manager

A drum designer application loosely modeled on the Mini-Cooper site, developed for Latin Percussion to launch their new, highly customizable conga line. The Flash front end hooks into a LAMP based dealer quoting system for eventual order fulfillment.

Content Manager <http://www.provincetowndesign.com/eazyedit.html>

Company: Eazy Update

Client since: December 3rd, 1998

Agency: Provincetown Design Group

Roles: Database Designer, Flash Programmer, Information Architect, PHP Programmer

Team: Art Director, Marketing Manager

A comprehensive Flash-based content management and database administration application that builds medium scale, PHP/MySQL-based websites. The system handles user registration, enhanced listings, flexible advertising model, and payment processing.

PHP Projects

Tourism Portal <http://provincetown.com/>

Company: Provincetown.com

Client since: July 1st, 1998

Agency: Provincetown Design Group

Roles: Database Designer, Information Architect, PHP Programmer, System Administrator

Team: Art Director, Project Manager

A data driven, full featured portal for the seaside resort of Provincetown, MA. Features include accommodation, real estate and event searching, cross referenced editorial, display ads and over 3,000 listings edited by local businesses and organizations.

Jewelry Shop <http://www.byboe.com/>

Company: By Boe

Client since: December 1st, 2005

Agency: Freelance

Roles: Database Designer, HTML Coder, PHP Programmer

Team: Flash Designer, Graphic Designer

LAMP based retail jewelry site that links through to PayPal for payment processing using their cart API.

MLS Real Estate <http://www.patshultz.com/>

Company: Pat Shultz Real Estate

Client since: December 13th, 2001

Agency: Provincetown Design Group

Roles: Database Designer, HTML Coder, PHP Programmer

Team: Art Director

Full featured real estate site allows registered users to save listings, searches and customized RSS feeds. Property listings are imported from the Multiple Listings Service, while rental listings come in from Provincetown.com's Finder databases via XML.

Music Retailer <http://www.wavemusic.com/>

Company: Wave Music, NYC

Client since: April 7th, 2001

Agency: Freelance

Roles: Database Designer, PHP Programmer, Project Manager

Team: Graphic Designer, HTML Coder

A music, clothing and DJ accessory shop for Wave Music - one of NYC's hottest dance labels. Features artist information, music previews, easy navigation, comprehensive search and full featured cart with international shipping and several payment options.

Local Paper <http://www.provincetownbanner.com/articles/>

Company: Provincetown Banner

Client since: August 1st, 1998

Agency: Provincetown Design Group

Roles: Database Designer, Information Architect, PHP Programmer

Team: Graphic Designer

The Provincetown Banner uses PHP and MySQL to offer archives of selected print articles stretching back a decade. Site features include chronological browsing, intelligent searching, PDF download of seasonal features, advertising, polls, and galleries.
